**STATUS OF TUCSON ELECTRIC POWER COMPANY'S
COMPLIANCE WITH CONDITIONS
SET FORTH IN DECISION NO. 71420
MAY 1, 2010**

Tucson Electric Power Company hereby reports as follows:

- **Condition 9:**

Within 120 days of the Commission decision granting this Certificate, Applicants or their assignees will post signs in or near public rights-of-way giving notice of the Project corridor to the extent authorized by law. Such signs shall be placed in prominent locations at reasonable intervals so that the public is notified along the full length of the project until the transmission structures are constructed. To the extent practicable, within 45 days of securing easement or right-of-way for the Project, the Applicants or their assignees shall erect and maintain signs in those areas providing public notice that the property is the site of future transmission lines. Such signage shall be no smaller than a normal roadway sign. Signs shall be three feet by five feet with title lettering at least three inches in height and regular lettering at least one inch in height or otherwise to the extent authorized by law. The signs shall advise:

- (a) That the site has been approved for the construction of Project facilities;*
- (b) The expected date(s) of commencement of construction and completion of the Project facilities;*
- (c) A phone number for public information regarding the Project;*
- (d) The name of the Project;*
- (e) The name of the Applicant; and*
- (f) The website of the Project.*

Status: Posting of ten new corridor signs was completed within 120 days of the Decision, on April 5, 2010. A copy of the signs' content, a table of locations, and a photographic listing of each sign is attached hereto as Exhibit A.

- **Condition 15:**

The Applicants or their assignees shall provide copies of this Certificate to Pinal County, Pima County, the Town of Marana, the Arizona State Land Department, the SHPO and AGFD.

Status: A copy of the Certificate was mailed to each of the agencies listed.

- **Condition 20:**

Within sixty (60) days of the Commission decision granting this Certificate, the Applicants or their assignees shall make good faith efforts to commence discussions with private landowners, on whose property the Project corridor is located, to identify the specific location for the Project's right-of-way and placement of poles.

Status: All segments of the Project will be within existing right-of-way on State land, therefore no private landowners will be contacted.
